BILL OF MATERIALS (BOM)

DEMO / REFERENCE
BOM Ref: BOM-ENC-2026-600400200
Enclosure Ref: ENC-2026-600400200

AIoT-Based Smart Sheet-Metal Panel Fabrication System

Source basis: component and price rows from the supplied demo quotation. Quantities shown are the quoted batch quantity; verify against the approved enclosure design before procurement.

Project / enclosure	ENC-2026-600400200	**Batch quantity**	5 (quoted demo batch)
Material reference	IS 513 CRCA Grade D, 1.5 mm (quoted; confirm)	**Currency**	INR (■)

Material and component schedule

Part No.	Component / description	Category	Dimensions / reference	Material / specification	Qty	Unit rate (■)	Line total (■)
COMP-001	Molded Case Circuit Breaker (MCCB) 3P 100A	Circuit protection	105 × 165 × 86 mm	—	5	3,200.00	16,000.00
COMP-002	Miniature Circuit Breaker (MCB) 2-Pole C16	Circuit protection	36 × 85 × 73 mm	—	5	650.00	3,250.00
COMP-003	Switch Mode Power Supply (SMPS) 24V 10A (240W)	Power supply	60 × 125 × 114 mm	—	5	2,800.00	14,000.00
COMP-004	Industrial Motor Contactor 3P 32A + Overload	Motor control	45 × 140 × 95 mm	—	5	1,950.00	9,750.00
COMP-006	Slotted PVC Wiring Duct (60 × 40)	Wire management	60 × 40 × 1000 mm	—	5	380.00	1,900.00
COMP-007	Standard 35 mm Steel Top-Hat DIN Rail	Mounting hardware	35 × 7.5 × 1000 mm	—	5	240.00	1,200.00
RAW-ENC-001	Raw Sheet-Metal Enclosure Shell	Raw material	Enclosure spec requires confirmation	IS 513 CRCA Grade D, 1.5 mm (quoted)	5	1,148.00	5,740.00
FAB-SVC-001	Fabrication & Finishing Services	Manufacturing	Laser cutting, press-brake bending, powder coating	Quoted service description	5	307.00	1,535.00

Quoted line-item subtotal	■53,375.00
GST (18% as stated in source quotation)	■9,607.50
Total incl. GST	**■62,982.50**

Important verification note: This BOM is prepared from the supplied quotation's item descriptions, quantities, and rates. It is a demo/reference document, not an approved procurement list. The supplied enclosure drawing may represent a different configuration from the quotation's stated dimensions (600H × 500W × 250D mm). Confirm the approved enclosure drawing, component count per enclosure, quantities for the intended batch, material specifications, and current supplier prices before purchase. No missing COMP-005 identifier has been inferred.

Prepared for the AIoT frontend prototype • Reference values require engineering and purchasing approval before real-world use.
