QUALITY DOCUMENTATION

DOCUMENT TYPE
CERTIFICATE OF CONFORMANCE

CERTIFICATE OF CONFORMANCE

AIoT-Based Smart Sheet-Metal Panel Fabrication System

DEMO TEMPLATE — NOT A VALID CERTIFICATE. No physical inspection evidence, approved acceptance record, authorized signatory, or verified production batch was supplied for this document. This template must not be used to represent actual product conformity, regulatory compliance, or permission to ship.

1. Product identification

Product / assembly	Sheet-metal electrical enclosure (reference illustration)
Project	AIoT-Based Smart Sheet-Metal Panel Fabrication System
Enclosure reference	ENC-2026-600400200 (reference only; verify against approved drawing)
Drawing / revision	Not supplied / not verified
Batch / serial numbers	Not supplied
Manufacturing date / inspection date	Not supplied

2. Conformance review checklist

Inspection item	Evidence / result	Status
Approved drawing and revision	Not provided	PENDING
Material grade and thickness	Quoted specification only; not verified	PENDING
Dimensional inspection	No measured inspection results supplied	PENDING
Mounting features, door and lock	Reference images only; physical check required	PENDING
Finish and surface condition	No inspection evidence supplied	PENDING
Assembly and fastener verification	No signed checklist supplied	PENDING
Final quality authorization	Authorized reviewer not identified	PENDING

3. Declaration status

This document is a demonstration template only. Conformance cannot be declared until the approved drawing and revision, material traceability, dimensional results, finishing checks, assembly verification, and authorized quality approval are recorded. The status of this template is **PENDING — NOT RELEASED**.
